

Responding to a Sourcing Event

Coupa allows buyers to run RFx and auction-like sourcing events to selected suppliers. Each event will display information about CBRE, start & end dates, type of event, and qualifying questions. Below are the steps needed to respond to an event.

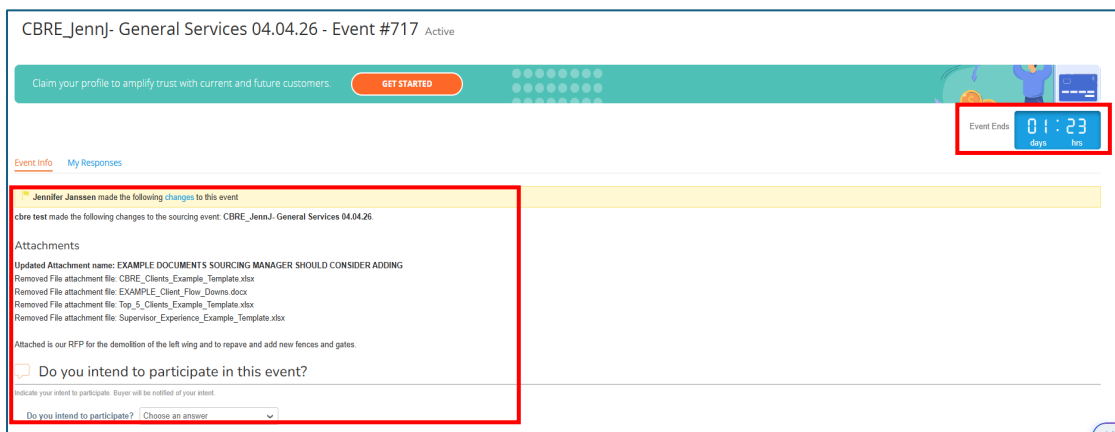

1. A CBRE buyer will send an email invitation to participate in the event. From the email you can select:
 - I intend to Participate
 - I decline to Participate
 - View Event

2. Select View Event

In the example above, the event was changed by the buyer. Once the buyer submits the changes to production, you will receive a notification email.

You can view the changes that were made under the Event Info tab. Throughout the event, the Event countdown times will be displayed.

3. Select I intend.

Do you intend to participate in this event?
Indicate your intent to participate. Buyer will be notified of your intent.

8. The Forms section houses the qualifying questions from the buyer. Remember to select Save throughout your work. Use the Hide/Expand arrows in the right margin to facilitate overview.

- You can respond within the user interface or select Import from Excel at the bottom of the page and download a Response Template. Review and respond to the questions offline and then upload the file back into the event.

- Once the Response Template is downloaded, Items & Services and Forms will be in separate tabs. Add your responses in the yellow boxes.
 - Save the file on your computer. Make sure the name is exactly the same as that of the original downloaded file.

| Item / Service | Supplier Response Fields | | | |
|-----------------------------|--------------------------|--------------------|---|---------------------|
| | Unit Bid Price | Bid Price Currency | Cost Formula (Text) | Labor Cost (Number) |
| Item Description (Text) | (Number) | (Text) | | (Text) |
| Site Demolition | 0 USD | USD | Total Cost per Unit = Total Cost | |
| Asphalt Paving | 0 USD | USD | Total Cost per Unit = Labor Cost + Material Cost | |
| Install Fences and Gates | 0 USD | USD | Total Cost per Unit = Labor Cost | |
| Fences and Gates- Materials | 0 USD | USD | Total Cost per Unit = Material Cost + Shipping Cost | |

Some key things to note:

- Buyer requested attachments need to be uploaded directly in the user interface
- Any multi-check box question, will need to be reviewed and responded to directly in the user interface
- Conditional formatted questions will have to be answered in the user interface
- Mandatory information is marked by a 'Yes'

11. A green banner will appear with a successful import.

12. Review the form questions to ensure all items were corrected answered. As noted above, multi-check box questions will not be completely answered. Any response highlighted in yellow was updated through the import. You can add to it or update your responses within the under interface.

- Remember any requests from the buyer for attachments, will need to be completed directly in the user interface. Mandatory questions are marked with a red asterisk.

* Would your company have the ability to track each of the following KPIs (select below all KPIs that your company could track):

- TRIR / Safety Rating
