City, OK and Sacramento,
CA, Senior Sales Associate

EDUCATION

University of Oklahoma,
Norman, OK
– BBA in Management

CAREER SUMMARY

At CBRE, Inc., Randy is responsible for the sales and leasing of industrial properties. Randy's responsibilities also include working closely with industrial clients who rely on timely market information to grow and expand their business.

Randy began his commercial real estate career in 1982 as an industrial specialist with CB Commercial (CBRE INC) in Oklahoma City. In that capacity, Randy was consistently a high producer. Following his time with CB Commercial, Randy opened Oklahoma City's first branch office for First Union Small Business Capital, one of the premier small business lenders in the United States in 1994. Under his leadership, First Union Small Business became the second largest provider of SBA loans in Oklahoma. Randy's understanding of the financing function in the commercial real estate process adds greatly to the assistance he offers his clients. Through his experience and production, Randy has achieved the Society of Industrial & Office Realtors designations (SIOR), making him one of the commercial real estate elite.

CAREER SUMMARY

Chris assists users, owners and developers in the sale and leasing of industrial property and has been a Top 10 Producer with CBRE's Oklahoma/Arkansas brokerage business. In addition to individual and group investors, he works with local, regional, and national organizations in a range of specialties, including the manufacturing, distribution, oilfield services, E-commerce, exploration & production, bitcoin/cryptocurrency data mining, and transportation & logistics industries. Chris spent the first decade of his career in public accounting, which helps him to strategically analyze and structure transactions. His disciplined approach to client service revolves around integrity, attentiveness and a standard of excellence. While Chris no longer actively practices, he is licensed as a CPA in the State of Oklahoma.

Chris serves the community as a member of the City Care Board of Directors. He is a graduate of SALLT, Leadership Oklahoma City's LOYAL program and Regional Food Bank of Oklahoma's (inaugural) Leadership Council.

HONORS & AWARDS

Oklahoma Business Ethics Consortium – The (inaugural) Dr. David B. Carmichael Leadership Award

Oklahoma Society of CPAs – Oklahoma City Chapter Distinguished C.P.A. Award

Oklahoma Society of CPAs – Trailblazer Award

Regional Food Bank of Oklahoma – Community Service Award

BKD CPAs & Advisors – Wow! Award

The SIOR Difference

Randy and Chris are part of a select group, being two of the 17 Society of Industrial and Office Realtors® (SIOR) designees in the local commercial real estate market. This affiliation connects them with a globally recognized professional association that has served the industrial and office real estate sector for over 80 years. With a membership of 4,000 professionals across more than 50 countries, SIOR highlights a significant level of knowledge, experience, ethics, and success in commercial real estate brokerage. Their SIOR designation reflects their dedication to upholding high industry standards.

Cameron Cooper, Jones Development – Kansas City, MO

"I truly mean it when I say this... I've worked on hundreds of projects across the county and seen the spectrum when it comes to brokers. I can honestly say that Chris and Randy are two of the best I've worked with. Truly appreciate their efforts and hard work on this deal. They were extremely forward-thinking and willing to roll up their sleeves to find solutions!"

Kathleen Glasgow, LEAM Drilling Services – New Iberia, LA

"Yes, I was definitely pleased with the experience. Chris and Randy's efforts to keep the transaction on track despite the tight timeline helped make the deal a success. And, of course, they brought us a quality buyer. Ron was equally pleased and sends well wishes that the buyer's development is a big success. We would readily recommend you to others in the commercial real estate market."

Jake Huber, Investor – Reno, NV

"Please accept this letter as our heart-felt thanks for all your experience, guidance, knowledge, time and effort in achieving the sale of our property at 7508 Melrose Lane, OKC, OK. You always returned phone calls and emails in a very timely manner, and you recommended some excellent people to help us."

Marketing Expertise

Our strategy is formulated after a careful review of each asset and any improvements as well as local market dynamics. Successful execution of the sale or leasing of the site demands a targeted, thorough approach, making it easy for buyers and tenants to have a complete understanding of the subject real estate and make an informed decision quickly. Our resources include:

CAMPAIGN LOGIC

CampaignLogic is an email marketing platform providing easy-to-use, CBRE branded layouts for property marketing, client communications, invitations, surveys and more, as well as robust occupier contact management, analytics and reporting tools.

COSTAR

CoStar Group, Inc./Loopnet.com is a leading provider of information, marketing and analytic services to CRE professionals in the United States. CoStar's suite of services offers their customers online access to the most comprehensive database of commercial real estate information.

CREXI

Crexi is a leading commercial real estate platform that simplifies listing, analyzing and trading properties. This platform connects buyers to opportunities by enhancing visibility and providing a robust database of available listings.

DEAL FLOW

Deal Flow is CBRE's global listing and digital marketing platform for all property and portfolio sales. The entire transaction process is streamlined by providing property marketing capabilities, tracking, a secure virtual deal room and reporting of how prospective buyers interact with each listing.

LOCATION INTELLIGENCE

CBRE has an analyst focused on regional warehouse-industrial occupier information.

The Location Intelligence Group is proud to deliver a new way to showcase location data and analytics.

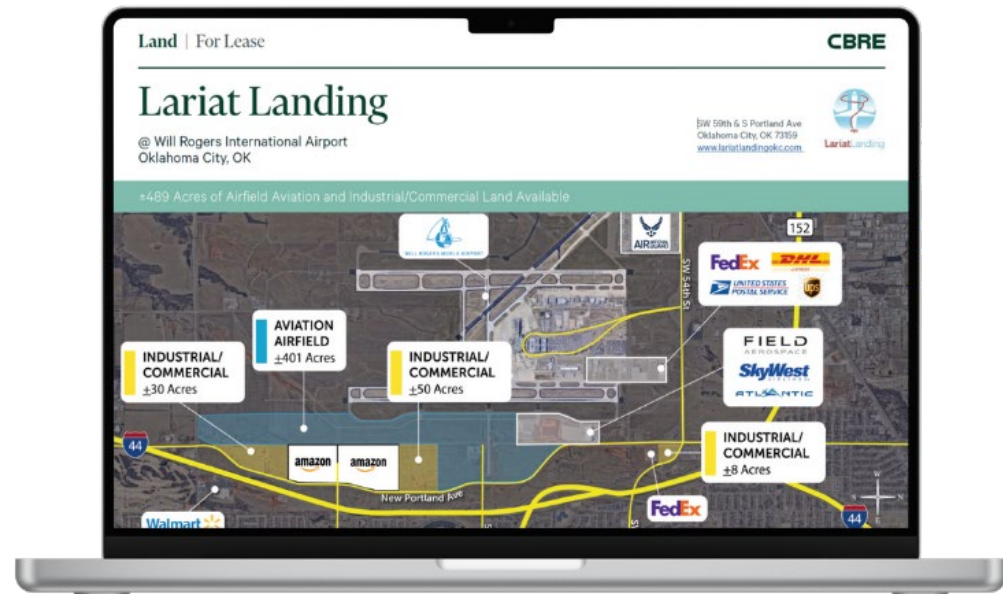

GLOBAL LISTINGS

Global Listings is CBRE's premier property listing platform. With over 3+ million active property listings in over 100+ countries, Global Listings has the scale to reach buyers across any market segment.

The State of the Oklahoma City Industrial & Logistics Market

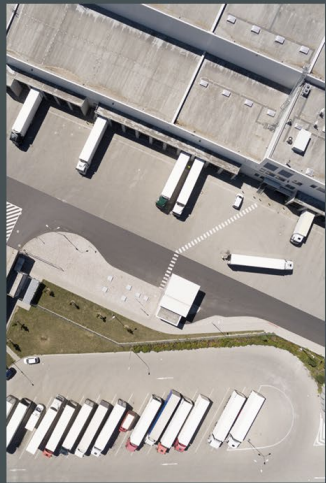

REPORT CBRE RESEARCH H2 2025

CBRE

Trends to Watch

- Industrial leasing activity will rise slightly in 2026:**
Tenants will continue to renew space at record levels, expand domestic manufacturing capabilities to mitigate tariff-related costs, upgrade to a plethora of available first-generation distribution facilities or outsource distribution to 3PL providers.
- Vacancy will stabilize due to a lack of speculative completions:**
Despite minimal net absorption due to many lease expirations in older facilities, vacancy will stabilize in the mid-6% range.
- Occupiers will leverage the use of AI to improve service to consumers:**
This will create a resilient supply chain and location optimization from a labor, cost and power availability standpoint. Locations that can best meet these requirements should offer compelling investment opportunities.
- Incentives for early lease renewals will increase:**
Older industrial space is being returned at a robust pace, evidenced by the more than 100 million sq. ft. of negative absorption in pre-2020 buildings last year. To encourage earlier renewals by occupiers, many landlords are offering more generous tenant-improvement allowances and longer free-rent periods. On average, occupiers signed renewals 219 days prior to expiration in 2025, nearly 30 days sooner than in 2024. We expect this trend to continue in 2026.
- Mega big-box occupiers will want to quickly upgrade their space:**
Availability of first-generation facilities in certain markets is expected to quickly dwindle. Louisville, Columbus, Greenville, Chicago, Phoenix, the Inland Empire and Kansas City all have a limited amount of available first-generation blocks of 500,000 sq. ft. or more. Lease expirations in this size range will accelerate over the next three years, increasing the potential tenant base.

2026 Real Estate Market Outlook | U.S.

2026 U.S. Real Estate Market Outlook

REPORT CBRE RESEARCH JANUARY 2026

Despite Economic Challenges, Commercial Real Estate Expected to Thrive

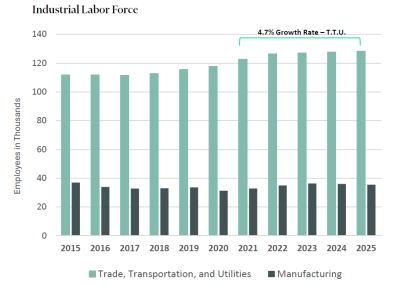

CBRE

Economic View

Employment in the trade, transportation and utilities supersector—where Oklahoma City's key sector, logistics, lies and accounts for 30% of employment within the supersector—has experienced tremendous growth, with a 15% increase in labor force over the last 10 years. The supersector currently represents 18.3% of the total labor force in Oklahoma City across all industry sectors. The market is host to numerous Fortune 500 and 1000 companies in distribution and logistics and is home to over 3,500 business establishments within the same sector.

In contrast, employment in the manufacturing industry has decreased 16% year-over-year and 4% in the last decade; however, growth is recorded and at a rate of 16% intra-year, supporting the growing company pipeline in this industry.
